📁 PROJECTS

E-learning website ⬈

- The design and development of an e-learning platform with HTML, CSS, JavaScript, and React.js enabled

  users to browse available courses and enroll in them.
- It offers a smooth and interactive learning process.

  With this project, my skills have been showcased to develop   dynamic web applications with a main focus on

  the user experience.

Coffee website ⬈

- I designed an interactive, responsive website for the coffee shop using html css javascript Bootstrap and jQuery;
- It included an interactive menu, a customer feedback form, and an online ordering system.
- This project helped me enhance my skills in both frontend development and responsive design.
